

Course Plan

AIG 200 Capstone Project

Course Info

Professor	Dr. Farnaz Derakhshan, Email: farnaz.derakhshan@senecapolytechnic.ca
Course Name	Capstone Project
Course Code	AIG200
Term	Spring/Summer 2026
Schedule	Tuesday (Lec) 8:55AM to 10:40AM @Newnham Bldg A - A2505 Friday (Lab) 11:40AM to 1:25PM @ Newnham Bldg A - A1509A

Course Evaluation

Assignments	10%
Milestones	20%
Peer Review	10%
In-Class presentation	25%
Research Paper	35%
Total	100%

Schedule of Topics and Assignments

Week No	Week of	Agenda/Topic	Assignment Due
W 1	May 4	Lecture: Introduction to Capstone Project Group Formation, Topic Selection Lab: Machine learning development lifecycle	
W 2	May 11	Lecture: Group Formation and Topic Selection Creating your AI Strategy Lab: Prototyping, Collecting a sample of data, Importing your data Creating a proof of concept (POC)	
W 3	May 18	Lecture: Milestone 1 evaluation Meet with each group 1-on-1 to discuss progress so far and identify next steps Lab: Continue building POC, Identify performance metrics	Milestone 1 – (5%) Peer Review (2.5%)
W 4	May 25	Lecture: Overview of common MLOps pipelines Investigation into pre-existing deployed ML cloud solutions Administer Model Deployment Assignment Lab: Creating a new ML model on the cloud	
W 5	June 1	Lecture: Check-in before milestone 2 Lab: Refresher on GitHub	
W 6	June 8	Lecture: Milestone 2 evaluation Meet with each group 1-on-1 to discuss progress so far and identify next steps Lab: Converting a python notebook to a python application Storing and accessing your models	Milestone 2 – (5%) Peer Review (2.5%)
W 7	June 15	Lecture: Performance metrics and how to collect them Performance metrics within cloud deployed ML solutions Lab: Collecting results within Python Notebooks	Model Deployment Assignment Due (10%)
Reading week June 22- 26			
W 8	June 29	Lecture: Check-in before milestone 3 Lab: Group help sessions Lecture: Milestone 3 evaluation Meet with each group 1-on-1 to discuss progress so far and identify next steps	Milestone 3 – (5%) Peer Review (2.5%)
W 9	July 6	Lecture: Ethical considerations and data compliance Lab: Group help sessions	
W 10	July 13	Lecture: Understanding the limitations of your system How to build around limitations Lab: Group help sessions	
W 11	July 20	Lecture: Milestone 4 evaluation Lab: Group help sessions Meet with each group 1-on-1 to discuss progress so far and identify next steps	Milestone 4 (5%) Peer Review (2.5%)
W 12	July 27	Lecture: Final Presentations Lab: Final Presentations	In-Class Presentation (25%)
W 13	August 3	Lecture: Final Presentations Lab: Final Presentations	In-Class Presentation (25%) Final Report /Research Paper (35%)
W14	August 10	No Exam for this Course ☺
